

AI USAGE DECLARATION FORM

Specify the tasks in your assignment where AI was used.

AI was used in a limited capacity to assist with:

- Debugging JavaScript and PHP errors.
- Refining CSS styling for both booking and admin page
- Clarifying programming concepts and techniques.

Briefly explain why the AI tool was used (e.g., idea generation, summarization, coding, etc.).

- The AI tool was mainly used as a learning and debugging aid to help identify coding issues, explain errors, and provide guidance on implementing certain frontend and backend features.

Clearly state the AI tools used.

- ChatGPT

List the main prompts (less than 5) or queries entered into the AI tool

- "Why does the booking request not return?"
- "Why the confirmation message is not displaying?"
- "Can you help me match my stylesheet in booking.css to admin.css"

A summary or description of the AI-generated output. (Optional: attach output in an appendix.)

- The AI provided example code snippets, debugging suggestions, styling recommendations, and explanations related to JavaScript, PHP, database queries, and frontend interface behavior.

Describe how the AI output was used, edited, or transformed.

- The AI-generated suggestions were used only as guidance and were modified extensively to fit the assignment requirements and the existing booking system implementation. The final code structure, functionality, styling decisions, and testing were completed and refined independently by the student.
